Office of

Coal Mine Safety & Coal Miner Certification

Utah Labor Commission

Our Mission

To maximize Coal Mine safety, prevent Coal Mine accidents and provide for effective Coal Mine accident response.

To report a mine safety condition that could cause a serious accident, injury, illness or fatality Call Toll-Free **1-888-9UT-MINE (988-6463)**.

To report a hazardous condition at a mine to the Federal government's Mine Safety and Health Administration (MSHA) Call **1-800-746-1553.**

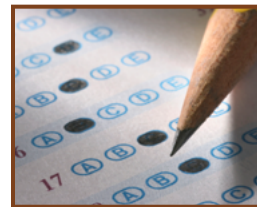

Office of Coal Mine Safety

Following the Crandall Canyon Mine Disaster, where six mine workers and three rescue workers died, the State of Utah passed the Utah Coal Mine Safety Act establishing the Office of Coal Mine Safety.

The Office of Coal Mine Safety purpose is to:

▸ Maximize Coal Mine Safety and prevent accidents

▸ Assist in MSHA with all major coal mine accidents

▸ Investigate any report of alleged unsafe acts or conditions in a mine

▸ Manage the State of Utah's emergency response plan for major coal mine accidents.

Coal Miner Certification

This Office administers 12 tests per year, one quarterly test and two retests for each of the following:

▸ Underground Mine Foreman

▸ Surface Mine Foreman

▸ Underground Electrician

▸ Surface Electrician

▸ Fire Boss

Coal mine certification/training and questions regarding coal mine safety Call Toll-Free **1-888-9UT-MINE (988-6463)**, or see the online web application at **www.laborcommission.utah.gov.**
